9 March 1982

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM : SA/DCI/IA

SUBJECT : Proposed Topics for Meeting with PFIAB on 11 March 1982

1. Per your request, I obtained from Les Dirks some background data on our planned technical collection enhancements. As it turns out, [] is currently scheduled to brief the PFIAB in some detail on these planned improvements either tomorrow or Thursday. I will let you know as soon as I confirm the details from []. Meanwhile, Les has provided some thoughts of his own as well as a copy of the briefing book provided the Director early last year.

2. Two other subjects came up today. The first is from the DDA regarding the new building. You have a one-page memorandum from Harry Fitzwater explaining the status of that project. You may wish to inform the PFIAB of what we have in mind.

3. The second new topic today is from the DDI. You may wish to inform the PFIAB that Bob Gates has established a Production Evaluation Staff to examine and monitor both the quality of analysis and the allocation and utilization of analytical resources.

4. Beyond the above, the proposed topics remain as I described to you in my memo yesterday. A list of proposed topics is included on the facing page of this package. Please let me know if there is anything else you would like to have.
